

USER GUIDE

INTRODUCTION

The CAS-RC Remote Control is designed for use with the Russound CAS44 controller amplifier and system keypads (KP6, KP4, and KPL). It is designed to operate source devices and the audio system keypad, and is preprogrammed to control Russound components ST2 Tuner and SMS3 Media Server). The CAS-RC controls up to four devices. For best results, please read and follow all the remaining instructions and keep this guide for future reference.

FEATURES AND FUNCTIONS

Note: S1, S2, S3, S4, Vol +/-, Mute and Power are system commands and are the same for any source. All other buttons are dependent upon the device code associated with the source and may vary from

The following Key Charts provide a general description of button functions

Change inputs on selected device. To change inputs on CAS44 use S1 - S4 buttons

Press LAST once to recall the last channel and to page back one screen in the main

Directly enter channels (e.g., 09 or 31). Press OK to send channel number entries on some TV models

INSTALLING BATTERIES

- 1 On the back of the CAS-RC, push the tab and lift off the battery cover.
- Obtain two (2) fully-charged AA alkaline batteries. Match the + and - marks on the batteries to the + and - marks in the battery case, then insert the new batteries.
- 3. Press the battery cover back into place. The tab should click when the cover is locked.
- 4. Test the unit by pressing Power and any mode key. If the batteries are inserted correctly, the LED will blink once.

PROGRAMMING A DEVICE

Note: S1, S2, S3, S4, Vol +/-, Mute and Power are system commands and are the same for any source. All other buttons are dependent upon the device code associated with the source.

Before proceeding, find the codes for the devices you want to program in, under "Manufacturer's Codes" in this manual. To control Universal TV. VCR or DVD, Cable or Satellite Receivers, Amplifier or Tuner, and Auxiliary devices, follow these steps.

- Turn on the device (e.g., DVD player) and if needed, load media.
- Press a device key (S1, S2, S3 or S4)
- Press and hold SET until the red LED blinks twice, then release.
- Enter the first five-digit code for your device. The LED blinks once as each digit is entered. If the code is valid, the LED blinks twice.
- Note: If the LED does not blink twice, repeat steps 2 to 4 and try entering the code again Aim the remote at the device and press a
- function button. The device should in turn perform the requested function. If it does not, repeat steps 3-5, trying each code for your brand until you find a code that works. If you cannot find a code that works see "Searching for Your Code" in this manual.
- Repeat steps 1-5 for the other devices you want to control. For future reference, write down each working device code.

SEARCHING FOR YOUR CODE

Note: S1, S2, S3, S4, Vol +/-, Mute and Power are the same for any source. All other buttons are dependent upon the device code associated with the source. If your device does not respond to the remote after trying all codes listed for your brand, or if your brand is not listed, try searching for your code:

- 1. Press a device key once.
- 2. Press and hold SET until the red LED blinks twice, then release.
- 3. Enter 9-9-1, then the device group number (see below). The LED blinks twice.
 - Cable (Cable Converters, Video Accessories, Satellit Receivers)
 - TV (TVs)
 - VCR (VCRs, DVD players)
 - Audio (Audio Amplifiers, Audio Amp/Tuners,

- Aim the remote at the device and press POWER. The remote sends IR codes from its library to the selected device, starting with the most popular code first. If the device responds, go to step 6.
- 5. If the device does not respond, press CH+. the remote will try the next code. Continue until the device responds. Press CH- to try the previous code.
- 6 Press SET to lock in code To search for other device codes, repeat steps 1-5.

CHECKING THE CODES

If you have set up the remote using the procedure in 'Searching for Your Code," you may need to find out which five-digit code is operating your equipment. For example, to find out which code is assigned to

- Press the S# key to which the TV is assigned.
- Press and hold SET until the red LED blinks twice, then release.
- 3. Enter 9 9 0. The LED blinks twice
- 4. To view the code's first digit, press 1. Count the LED blinks (e.g., three blinks =3), and enter the number in the appropriate device list in step 6 of "Programming a Device." If a code digit is 0, the LED does not blink.
- Repeat step 4 for the remaining digits, using 2 for the second digit, and so on.
- 6. To check for other device codes, repeat steps 1-5, using the appropriate S# key.

USING LEARNING

The CAS-RC includes a Learning feature so you can add functions that are unique to your home entertainment devices (e.g., VCR Tracking Up or Down). The following precautions apply.

- · The original remote controls must be in working order for learning to work properly.
- · Learned keys are mode specific, so each one can store a unique function for each mode.
- Do not use the following keys for learning: Device Keys, SET, BACK, or Record. • Learning capacity is approximately 40 to 100 keys,
- depending on the code being learned. · Certain device codes are not learnable including multi-frequency types, some high frequency ones, and other unusual formats.
- · For optimum learning, avoid high levels of ambient light such as natural sunlight or energy-efficient flu-
- · Have the original remote controls handy before programming learning

Programming a learned key

Note: If more than 15 seconds pass between key presses, the remote exits programming

- Press and hold SET until LED flashes twice.
- Press 9 7 5.
- Press a device key once (e.g., S1, S2, S3, S4) to assign a mode for learning.
- 4. Place the CAS-RC head-to-head (about 2" apart) from your original remote control. Also locate the key (on original remote control) that will serve as the teaching function.
- On the CAS-RC, press a key where the learned function will be stored.
- 6. On the original remote, press and hold the the key to be learned. The CAS-RC LED will turn off.Continue holding the key on the original remote until the CAS-RC LED blinks twice.

Note: If the LED displays one long blink, a learning error has occurred. Try repeating this step again until a successful capture occurs. If the function is still not captured, press and hold SET to exit programming. Review the learning precautions listed above, or the Troubleshooting tips below, before beginning again at step 1.

- 7. To program another key for the same source, repeat steps 5-6. To program another device, repeat steps 1-6. Press and hold SET to exit programming Deleting a single learning key
- Select a source.
- Press and hold SET until the LED flashed

NOTE: If more than 15 seconds passes between key presses, the remote exits programming.

- Press 9 7 6.
- 4. Press the key (twice) containing the learned function to be deleted. The remote blinks twice.
- 5. Repeat steps 2-4 for another key on the same source, or press and hold SET to exit programming.

Deleting all learned keys in a specific mode Press and hold SET until the LED blinks twice Note: if more than 15 seconds pass between key presses, the remote exits programming.

TROUBLESHOOTING

Problem: LED does not blink when you press a key. Solution: Replace battery with two new AA batteries Problem: LED blinks when you re-press a key, but device does not respond.

Solution: Make sure the remote is aimed at your device and is not more than 15 feet away.

Problem: LED blinks one long blink

Solution: An entry error has occurred (e.g., wrong key). Try entry sequence again.

Problem: Remote does not control devices or commands are not working properly.

Solutions: Try all listed codes for the device. make sure the device operates with an infrared remote control. Problem: Channels do not change properly.

Solution: If the original remote control required you to press ENTER to change channels, press enter on this remote after entering the channel number

ADDITIONAL INFORMATION

The CAS-RC does not have any user-serviceable parts. Opening the case, except for the battery cover, may cause permanent damage to the CAS-RC. Copyright @2005 Russound, Inc.
